County officials and various department heads met with the Board to discuss their views regarding employee salary increases for the 1991-92 fiscal year. A number of employees have accumulated more vacation time than is allowed under the County Personnel Policy. It was determined that a "take it or lose it" policy begin effective September 1, 1991, and that employees be encouraged to reduce their vacation accumulation to the maximum or less, or lose the overage at that time. From September first forward, the computer will not allow for accumulation above the maximum allowed.

At this time the Chairman called for an executive session to discuss personnel matters with Bob Gordon, County Planning Director.

Following the executive session, the Chairman re-convened the meeting of the Board.
