

Hi Everyone,

Don't forget that the Blitz for this quarter is **Shelter-in-Place** and **72 Hour Survival Kits**. We are asking you to please share this important information with your clients. With the interstate and the railroad running thru our communities as well as many pipelines and local industry; Sweetwater County has identified the greatest hazard to be a hazardous materials incident. In many incidents it will be safer to shelter in place than it would be to attempt to evacuate. Having a 72 Hour Survival kit prepared will come in very handy when sheltering in place as well as in an evacuation. Information on both of these programs can be found on our web site at <http://www.sweet.wy.us/ema/shelterinplace/shelterinplace.html> . This web site will give you access to several brochures and posters as well as the *Shelter In Place* video. The Tiger VIP class did an excellent job of producing this video for the Local Emergency Planning Committee. If you prefer, you can obtain copies of these brochures, posters and video as well as magnets outlining how to Shelter in place from our office. These items are free to the public thanks to a grant obtained thru the LEPC. Please contact our office prior to picking up items so we can have them ready and waiting for you. (We may need to make up additional copies and don't want to make you wait.)

Thank you for helping us get this important information to those individuals that need it most, your clients.
